Release Notes

for Kerio Connect 8.0.2

Date: March 21, 2013

1 Important changes in this version

Service release

This is a service release containing mostly fixes of issues found after the release of Kerio Connect 8.0.0. The list of fixes can be found in Change Log document.

Kerio Connector for BlackBerry

Kerio Connector for BlackBerry will be discontinued in the next major version of Kerio Connect.

Kerio Sync Connector for Mac

Kerio Sync Connector for Mac will be discontinued in the next major version of Kerio Connect. Starting with OS X 10.6 the Mac clients can be synchronized directly with the Kerio Connect server via CalDAV and CardDAV protocols. The clients can be easily configured by auto-configuration tool available for download from the Integrations page on the server.

2 Upgrade

No issues.

Kerio Outlook Connector (Offline Edition) Upgrade

No issues.

3 Downgrade

No issues.

Kerio Outlook Connector (Offline Edition) Downgrade

Kerio Outlook Connector (Offline Edition) cannot run after downgrade to version 7.4 or older. Maintenance installation of required version is necessary after downgrade. Installation package from server's integration page can be used.

4 Open Source Software Notice

Kerio Connect includes open source software. Complete open source code packages of these components are available in Kerio Software Archive at http://download.kerio.com/archive/.
